Allowance

Allowable Subject Matter

1. Claims 1-17 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The reasons for allowance are based on the inclusion of:

- a. In Claim 1, the method steps of *disposing a first end of a male fastener component through the first plate, sealant material layer, and second plate of the test assembly* and connecting the first end to a mating fastener component, whereby the male fastener component and the connected mating fastener component collectively form a fastener assembly; *heating the test assembly to a second temperature* for a period of time and then lowering the temperature to the initial temperature; and *measuring the elongation of the male fastener to determine the tension load remaining on the fastener after heating.*

- b. In Claim 13, the method steps of *disposing a threaded fastener through and perpendicular to the first plate, sealant layer, second plate, and into a mating threaded component; heating the plates, fastener, and mating component to a second temperature between about 150°F and about 400°F* for a fixed period of time and then lowering the temperature to room temperature; and, *remeasuring the elongation of the fastener.*

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
